

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Chemical Engineering	IIT BHU	2022-2026	7.53
TS BIE (XII)	Physics, Chemistry, & Mathematics	Narayana College	2020-2022	9.65
TS BSE (X)	-	Bhashyam	2020	10.0

TECHNICAL SKILLS

- **Languages:** C/C++, Python, JavaScript, HTML, CSS, SQL
- **Tools:** Node.js, React.js, MongoDB, Redis, Spring Boot, GitHub, Postman, Power BI, VS Code
- **Core Concepts:** Data Structures & Algorithms, OOPs, DBMS, REST APIs, Software Development
- **Soft Skills:** Problem Solving, Teamwork, Effective Communication, Leadership

INTERNSHIP

- **Battery Data Analytics** [ARCI, Hyderabad] Jun-Jul 2025
 - Processed and structured **50+ multi-format experimental datasets** from heterogeneous sources into clean, analyzable formats using **Excel-based data pipelines** and **statistical analysis tools**.
 - Applied **data extraction and transformation** techniques across multi-source inputs to identify performance trends, achieving **82% retention** validated across **100+ test iterations**.
 - Designed a **structured relational dataset** mapping input parameters to output metrics, enabling **comparative analysis** and establishing groundwork for future **ML-based prediction workflows**.

PROJECTS

- **Sliding Window Counter Rate Limiter** 2023
 - Engineered a **high-performance API rate limiter** in **Java** using **Redis** and **Sliding Window Counter algorithm** for precise request throttling and limit enforcement under burst traffic
 - Leveraged **Redis atomic operations** and time-bucket counters to enforce concurrent rate limits, validated through integration testing using **JUnit 5** and **TestContainers**
 - **Tech Stack:** Java, Redis, Jedis, JUnit 5, TestContainers, AssertJ, Concurrency Control
- **URL Shortener** 2024-2025
 - Designed and implemented a **URL shortening service** using **Node.js** and **Express**, generating collision-free **6-character short codes** via **nanoid** with database-backed uniqueness prevention logic
 - Implemented **server-side URL validation**, redirection logic with structured error handling and **MongoDB** database-level uniqueness checks to prevent ID collisions before link creation
 - **Tech Stack:** Node.js, Express.js, MongoDB, Nanoid, JavaScript, HTML, CSS, REST APIs
- **Lecture Check | AI-Enabled Lecture Management Platform** 2023-2024
 - Developed a **full-stack platform** using **React, Node.js, and Express**, integrating **Python-based BERT (NLP)** for automated content alignment validation across lecture materials and transcripts
 - Built analytics dashboards and file-handling workflows combining **ML backend** with responsive frontend, modular **RESTful architecture** and **MongoDB** database integration for lecture evaluation
 - **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Python, BERT (NLP), JavaScript, REST APIs

POSITIONS OF RESPONSIBILITY

- **Events Team Head** [Jagriti'25, IIT (BHU)] Jan-2025
 - Led the event planning and execution team, designing and organizing multiple events for **500+ attendees**, managing logistics, scheduling, and ensuring seamless operations from start to finish.
- **Branding Team Executive** [SoChem, IIT (BHU)] Aug'23 - May'24
 - Created engaging content for **20+ events**, significantly boosted social media reach by **56%** and gained **62%** new followers, and collaborated with cross-functional teams for consistent branding and seamless execution

EXTRA-CURRICULAR ACHIEVEMENTS/ACTIVITIES

- Attained a peak competitive programming rating of **1279** on **Codeforces (Div. 2 round 1044)**.
- Secured **440th rank** among 6,000+ participants in CodeQuest DSA Problem Solving Round of CodeClash'25.
- Completed **Complete Full-Stack Web Development Bootcamp** on Udemy, instructed by Dr. Angela Yu.
- Represented institute in **Volleyball** at **Udghosh'24**, IIT Kanpur Sports Festival
- Worked as a **Student Volunteer** at **Kashi Utkarsh Club** for empowering basti students.
